

# Emergency & Safety Equipment

## Mountain Radio

Mountain Radio is a high-frequency (HF) radio service that enables backcountry communication via volunteer base station operators.

Users are supplied with a radio (weight 2kg) incl. aerial. Daily scheduled contact times are established for users to listen to the weather report and pass on messages in an emergency.

### Canterbury Mountain Radio Service

These radios have cell and telephone call ability.

Check for details on website.

## Personal Locator Beacon

A 406 PLB is a small 500gms emergency distress beacon that emits a radio signal when activated. This signal is picked up by satellite and/or aircraft. An alert message is relayed to the Rescue Coordination Centre of New Zealand to facilitate rescue.

**To be used only in life-threatening situations.**
